

Smoked Bourbon / Black Pepper (Old Fashioned) Facial Protocol

Enjoy Responsibly. Enjoy Monthly. The health benefits of this French Oak Smoked Bourbon facial boosts your antioxidant levels to new heights! The cumulative effect of its antioxidant power could help reduce the risk of aging (ok, the effects of aging). French Oak treats both surface skin as well as hair follicles on men's beards. X-pressin™ is an advanced technology papain enzyme which gently digests the surface dead, scaly cells that make our skin feel rough. This superior enzyme provides a gentle alternative to abrasive and irritating exfoliation (especially for men just after shaving). This brick-and-mortar facial targets the mortar (corneodesmodomes) and digests the proteins and lipids to release the bricks (corneocytes/cells) to reveal fresh healthy skin. The Black Pepper Detox Mask has a warm, spicy aroma and increases blood circulation (detoxification) to the skin. The enzyme and mask have a Summer Complex of (1) SymCalmin®, to reduce heat rash, (2) Vitamin C to address dark spots and (3) Dermasyr10™ to manage breakouts.

Skin Conditions: Normal and sensitive skin; designed for men and their facial beard hair follicles but can be used on all clientele.

Professional Facial

1. Cleanse once with Green Tea Cleanser.
2. Cleanse a second time with Glycolic Cleanser.
3. Apply Smoked Bourbon Enzyme under steam for 7-10 minutes. Can be boosted with ½ pump of Lactic Acid for hydration or ½ pump of Glycolic Acid for more exfoliation benefits.
4. Remove with a warm barber towel or with cool aesthetic wipes.
5. *Optional:* Perform a microdermabrasion.
6. Perform extractions.
7. Apply Vitamin C/Green Tea Serum and Ageless Hydrating Serum.
8. Apply Black Pepper Detox Mask for 10 minutes and remove with warm barber towel.
9. Tone with Cucumber Toner.
10. Moisturize with Cacteen Balancing Moisturizer.
11. Protect with Sheer Protection SPF 30.

Smoked Bourbon Enzyme

Description

Professional Use Only. Bourbon derives its antioxidants from the oak casks within which it matures. French Oak neutralizes free radicals and reduces the harmful effects of oxidative stress with in skin and hair follicles.. X-pressin™ is an advanced technology papain enzyme which gently digests the surface dead, scaly cells that make our skin feel rough. This superior glow-enhancing enzyme provides a gentle alternative to abrasive and irritating exfoliation (especially for men just after shaving). This brick-and-mortar facial targets the mortar (corneodesmodomes) and digests the proteins and lipids to release the bricks (corneocytes/cells) to reveal fresh healthy skin.

Tingle factor: 0-2

pH: 6.0

Skin Types

Normal and sensitive skin; designed for men and their facial beard hair follicles, but can be used on all clientele.

Active Ingredients

- **Glycerin** acts as an emollient and lubricant. It also can be a humectant and draw moisture from the air to the skin.
- **Bourbon (Alcohol)** derives its antioxidants from the oaks casks within which it matures. This bourbon alcohol is anti-bacterial and anti-microbial.
- **Lipochroman-6 (listed as Dimethylmethoxy Chromanol)** protects cells from radicals and reactive species which trigger skin aging. Lipochroman-6 is designed to capture both types of free radicals, (Reactive Nitrogen Species and Reactive Oxygen Species) to avoid the aging effects.
- **Ascorbyl Glucoside** is a stable form of Vitamin C.
- **Phytessence™ French Oak (listed as Quercus Petraea Fruit Extract)** neutralizes free radicals and reduces the harmful effects of oxidative stress with in skin and hair follicles.
- **X-pressin™ (listed as Water, Carbomer/Papain, 1,2 Hexanediol, Caprylyl Glycol, Algin)** is a high molecular weight papain to assist in removing dead, scaly cells and the renewal of the skin surface.
- **SymCalmin® (listed as Butylene Glycol, Pentylene Glycol, and Hydroxyphenyl Propamidobenzoic)** is derived from oats, and is responsible for anti-inflammatory/anti-itch properties.
- **Dermasyr 10™ (listed as Maltodextrin, Syringa Vulgaris (Lilac) Leaf Cell Culture Extract)** regulates sebum to prevent breakouts.
- **Bisabolol (L-Alpha)** acts as an anti-inflammatory, promotes wound healing, reduces sensitivity, and alleviates heat while soothing skin irritation.

Tips for Use

- After cleansing, apply a thin layer to the face and manipulate into the skin with fingertips.
- Apply steam if desired. Remove with a warm barber towel after 7 – 10 minutes.

Smoked Bourbon Enzyme

Important Notes

Avoid contact with eyes, and flush immediately if contact occurs.

Always use sun block after using this product.

Formula Composition

Aqua (Water)
Glycerin
Polysorbate 20
Glucamine
Carbomer
Alcohol (Bourbon)
Dimethylmethoxy Chromanol
Ascorbyl Glucoside
Quercus Petraea Fruit Extract (French Oak)
Hydroxyphenyl Propamidobenzoic Acid
Syringa Vulgaris (Lilac) Leaf Cell Culture Extract
Papain
Bisabolol (L-alpha)
Citrus Aurantium Bergamia (Bergamot) Fruit Oil
Cedrus Atlantica (Cedar) Wood Oil
Vetiveria Zizanooides Root Oil
Vanillin
Caprylyl Glycol
Caprylic/Capric Triglyceride
Ethylhexylglycerin
Pentylene Glycol
Maltodextrin
Algin
Sodium Gluconate
Hydroxyethylcellulose
Butylene Glycol
1,2-Hexanediol
Sodium Hydroxide
O-cymen-5-OL
Phenoxyethanol

Black Pepper Detox Mask

Description

Professional Use Only. The Black Pepper Detox Mask consists of a Summer Complex of SymCalmin®, to reduce heat rash, Vitamin C to address dark spots and Dermasyr10™ to manage breakouts. This peppery cream mask has kaolin to absorb oil, yet is nourishing and softening with Safflower Oil.

- Anti-aging
- Softening, yet oil absorbing
- Anti-inflammatory
- Improves barrier function
- Reduces the appearance of fine lines and wrinkles

Skin Types

All skin types

Active Ingredients

- **Safflower Oil** is an emollient plant oil high in linoleic acid, an essential fatty acid. It is good for skin smoothing and skin moisture barrier enhancement.
- **Kaolin** absorbs sebum and prevents pore clogging. It is used to draw out impurities and toxins and thereby clears the skin of excess oil, dirt, pollution, and debris.
- **Glycerin** acts as an emollient and lubricant. It can also be a humectant and draw moisture from the air to the skin.
- **Ascorbyl Glucoside** is a stable form of Vitamin C.
- **Lipochroman-6 (listed as Dimethylmethoxy Chromanol)** protects cells from radicals and reactive species which trigger skin aging. Lipochroman-6 is designed to capture both types of free radicals, (Reactive Nitrogen Species and Reactive Oxygen Species) to avoid the aging effects.
- **SymCalmin® (listed as Butylene Glycol, Pentylene Glycol, and Hydroxyphenyl Propamidobenzoic)** is derived from oats, and is responsible for anti-inflammatory/anti-itch properties.
- **Dermasyr 10™ (listed as Maltodextrin, Syringa Vulgaris (Lilac) Leaf Cell Culture Extract)** regulates sebum to prevent breakouts.
- **Bisabolol (L-Alpha)** acts as an anti-inflammatory, promotes wound healing, reduces sensitivity, and alleviates heat while soothing skin irritation.
- **Piper Nigrum (Black Pepper) Seed Oil** has a warm, spicy aroma and increases blood circulation (detoxification) to the skin.

Tips for Use

- Apply a thin layer to the face after cleansing and exfoliation. Manipulate into the skin with fingertips.
- Remove with a warm barber towel after 7 – 10 minutes.
- Apply toner, moisturizer, and sunblock after use.

Important Notes

Avoid contact with eyes, and flush immediately if contact occurs.
