

ALPHA PRHO-LE® SUPER C-FERULIC ACID SERUM

- Cutting edge powerhouse ingredients & technology
- **Vitamin C** and **Ferulic Acid** along with synergistically blended **peptides** activate to reverse the appearance of sun-damage and stimulate natural collagen production

DESCRIPTION

Our advanced manufacturing technology blends natural Vitamin C and powerful Ferulic Acid to be encapsulated in our Alphasomes® delivery system for ultimate skin absorption, creating our highly anticipated Super C-Ferulic Acid Serum. This ultra-hydrating and rejuvenating serum serves as an important skin nutrient and powerful antioxidant, and is bursting with botanicals and advanced peptides. It stimulates natural collagen production and reverses the appearance of sun-damage, an early sign of skin aging.

FEATURES AND BENEFITS

- **Stimulate & balance:** Hypericum perforatum (St. John's Wort) Extract stimulates cell metabolism and helps to balance photosensitivity of the skin.
- **Revitalizing & smoothing:** Argania spinosa callus Culture Extract, a compound of stem cells from the Argan Tree, incorporated into our Peptide, helps renew and revitalize cell function while promoting healthy-looking skin.
- **Anti-inflammatory:** Punica granatum (Pomegranate) Fruit Extract, rich in Vitamin C & B6, has anti-inflammatory benefits and is soothing for sensitive skin
- **Fight Environmental Damage:** The star ingredient- Ferulic Acid, is found in plant cells and boasts potent antioxidant benefits. It has been shown to reverse sun damage, an early sign of skin aging. A blend of Vitamin C, Ferulic Acid and Vitis vinifera Fruit Cell Extract in combination with our advanced peptide complex and encapsulated into our targeted Alphasomes® delivery system helps to shield the skin from oxidative stress.

USAGE

Apply a few drops to face, neck, and décolleté after daily cleansing and toning, every morning and evening. Pat onto skin lightly and follow with moisturizer and sunscreen (if used during the day).
