Hydrophyllic Oil

With Grapeseed

DESCRIPTION:

A synergistic Phyto-therapeutic oil distilled from fresh flowers, Hydrophyllic Oil is a lightweight multi-purpose oil with many essential properties. Gently relaxes and energizes the mind and body. Ideal for face and body massage. Can also be used in the bath, as a makeup remover, or as a body moisturizer.

Provides comfort and serenity for stressed and damaged skin, while uplifting and relaxing. Natural Anti-Oxidants and Essential Oil of Hyssop help to uplift and gently relax your Body, Mind and Spirit.

FEATURES AND BENEFITS:

Rejuvenate | Vitis Vinifera (Grapeseed) Oil, pressed from the seeds of various varieties of vitis vinifera grapes, has regenerative and restructuring qualities. Persea Gratissima (Avocado) Oil, blended with Prunus Amygdalus Dulcis (Sweet Almond) Oil and Carthamus Tinctorius (Safflower) Oil moisturize skin and help to support the cell membranes.

Repair and Restore Skin | Buxus Chinensis (Jojoba) Oil, Hyssopus Officinalis Leaf Oil, infused with Anthemis Nobilis (Chamomile) Essential Oil (from distilled fresh flowers) to help to repair the skin and reduce the look of stretch marks.

Antioxidant | Tocopherol, Tocopheryl Acetate, Retinyl Palmitate help to support the procyanidolic oligomers of the grapeseed oil, providing powerful anti-oxidant effects and helping to block ingredient peroxidation.

USAGE:

Pour a generous amount in the palm of your hand, massage with moist fingertips. Remove with water or leave on skin. Or, after shower: towel dry your skin, apply Hydrophyllic Oil all over your body as a moisturizer, massage lightly into the skin. Skin will feel silky and smooth

INGREDIENTS:

Vitis Vinifera (Grapeseed) Oil, Persea Gratissima (Avocado) Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Carthamus Tinctorius (Safflower) Oil, Ethylhexyl Palmitate, Buxus Chinensis (Jojoba) Oil, Hyssopus Officinalis Leaf Oil, Anthemis Nobilis (Chamomile) Essential Oil, Tocopherol, Tocopheryl Acetate, Retinyl Palmitate

SIZES:

8 fl.oz, Ref. # 6002-1
